- Who is responsible for which functions? Julia is responsible for: Summary.pem_cr, print.pem_cr Philipp is responsible for: pem_cr

- Who contributed more to the code? They both contributed round about the same to code

- Who pushed more often? Philipp has added more to the code(6 changes) Julia did just one change

- Do the two have a different style Philipp changes his code more often Julia did it just one time, but so, that everything was correct
